# Agenda

IPL is among the most famous cricket league with players coming from worldwide. The Indian Premier League (IPL) (also known as the TATA IPL for sponsorship reasons) is a men's T20 franchise cricket league held annually in India. It is contested by ten teams (franchises) based in seven cities and three states of India. The league was founded by the Board of Control for Cricket in India (BCCI) in 2007. Brijesh Patel is the incumbent chairman of IPL It is usually held annually in summer across India between March and May and has an exclusive window in the ICC Future Tours Programme.

What makes this series more competitive every year is the drama with every ball and hence this dataset is a complete dataset showing match information and also data for each delivery.

Contains data for each ball for the entire tournament from 2008 to 2022. The data will be updated every day until the season's final match. The match ID is given by ESPNCricinfo and is also used by other datasheets and acting as the primary key.

---

Variable	Variable type	Description
Innings	Numeric	Contains the number of innings
Overs	Numeric	Contains the number of overs
Teams	Name	Contains the name of teams
Venues	Name	Contains the name of venues
Toss winner	Name	Contains the name of the toss winner
